## LOGISTICS APPLICATIONS INC.

### LABOR CATEGORY DESCRIPTIONS SIN 132-51

#### **Software Consultant**

Functional Responsibility: Directs and plans project team's activities to manage and implement programs from contract initiation to final operational stage. Leads project staff in program commitments, schedules, determining client requirements, and translating requirements into operational plans. Manages finances to include costs, operational budget, staffing requirements, resources and risk. Identifies the appropriate blend of resources to meet requirements. Meets with customers to review program progress and resolve issues. Designs contingency plans which address schedule revisions, risks, fund allocations, and work requirements. Ensures adherence to legally binding requirements and client's long-term strategic goals.

Minimum Years of Experience: 5

Education: BS, MS in Information Technology, Computer Science or other relevant areas of study.

#### **System Administrator**

Functional Responsibility: Under general direction, responsible for activities related to system administration. Assigns personnel to various projects, directs their activities, and evaluates their work. Ensures long-term requirements of systems operations and administration are included in the overall information systems planning of the organization. Responsible for the installation, maintenance, configuration, and integrity of computer software. Implements operating system enhancements that will improve the reliability and performance of the system.

Minimum Years of Experience: 4

Education: High School Diploma or IT Certification

#### **Test Data Analyst**

Functional Responsibility: Under general direction, designs, constructs, tests, and implements IT solutions through application of appropriate software development life cycle methodology. Interacts with the customer. Defines scopes, plans and deliverables for assigned projects. Collects, identifies, defines, and organizes detailed user and IT requirements. Participates in business and technical information technology solution implementations, upgrades, enhancements, and conversions. Understands and uses appropriate tools to analyze, identify and resolve business and/or technical problems. Applies metrics to measure performance.

Minimum Years of Experience: 2

Education: High School Diploma or IT Certification

## **Program Manager**

Functional Responsibility: Under indirect supervision, oversees the operational planning, establishment, execution, and evaluation of a multifaceted program/project typically consisting of a set of closely related subprograms or associated activities. Oversees fiscal, operational, administrative, and human resources management of the program; seeks and develops outside funding sources, serves as principal point of representation and liaison with external constituencies on operational matters, and provides day-to-day technical/professional guidance and leadership as appropriate to the area of expertise..

Minimum Years of Experience: 5

Education: BS in Business Administration, Computer Science, Engineering or other relevant areas of study.
