

# Logistics Applications Inc.

## Capabilities Statement

Founded in 1986, Logistics Applications Inc. (LAI) has built an excellent reputation for fairness and Integrity, and a sustained performance record. We are a Service Disabled Veteran Owned Small Business (SDVOSB) and Minority Business Enterprise (MBE) focusing on enabling the operational success of the clients we serve.

## Supply Chain Management

LAI's supply chain management success is based in the recruitment of highly capable supply technicians and logisticians. After 30 years of managing supply chains to increase efficiency and reduce expense, we have extensive experience and know best how to leverage modern innovation that ensures asset control and safety, inventory accuracy, and most importantly, availability of supplies when they are needed.

### Acquisition

Our efficient and competitive bidding process ensures quick turnaround and resource stewardship while removing the

bureaucracy of the procurement process from your employees. We employ tight risk management through vendor redundancy to guarantee the goods and services required are always accessible.

### Asset Management

Whether managing a warehouse or inventorying current use assets throughout an organization, LAI has extensive experience

using multiple inventory programs ranging from Sunflower to PBUSE to client-designed programs. We maintain quality standards by creating rigorous production metrics that measure receipt and processing times, inventory accuracy, distribution speed, and customer satisfaction.

### Distribution

The quality of a supply chain management program is only as strong as its ability to deliver assets when and where they are needed. LAI

staff is capable of packaging and shipping supplies worldwide. We have decades of experience running in-house supply stores. Our transportation teams have provided distribution services at all levels, from within office buildings to long-distance hauling. Our goal is to get assets safely to their destinations, on time.

## Facilities Management

LAI's facilities management services include general program management, move management, maintenance worker and subcontractor management, space management, internal and external office and personnel moves, facility identification and leasing, and facilities help desk management and operation.

### Move Management

Our Move Management Services' goal is to support our customers' transition from one location to another. Whether it is a small move or an entire organizational move, LAI is skilled to plan and conduct the move by providing people, materials, and Standard Operating Procedures (SOP's) to yield success. We produce communication plans, and move manuals, offer certified AutoCAD, Space design and Change Management expertise.

### Facilities Management and Maintenance

LAI's goal is to assist you in creating the most cost efficient, environmentally conscious facility possible that creates a safe and comfortable working environment. Through strict project management plans, we create greater operability and continuous operations.

Our innovations in Facilities Maintenance include the creation of a Building Engineer. Skilled in HVAC, electricity, plumbing, and basic construction, LAI's Building Engineers are capable of providing first line response to nearly all facility maintenance needs, reducing downtime and subcontractor expense. These multi-skilled staff reduces position redundancy and creates human resource cost efficiencies.

### Facilities Help Desk

The Facilities Help Desk is many times the only one-on-one contact that client employees have with our staff and we strive to make the best impression. Help Desk staff are trained on a number of facility and IT Help databases including Foot Prints, Building Engines, and Remedy. Work scope ranges from general facility calls to transportation and conference scheduling.

# Logistics Applications Inc.

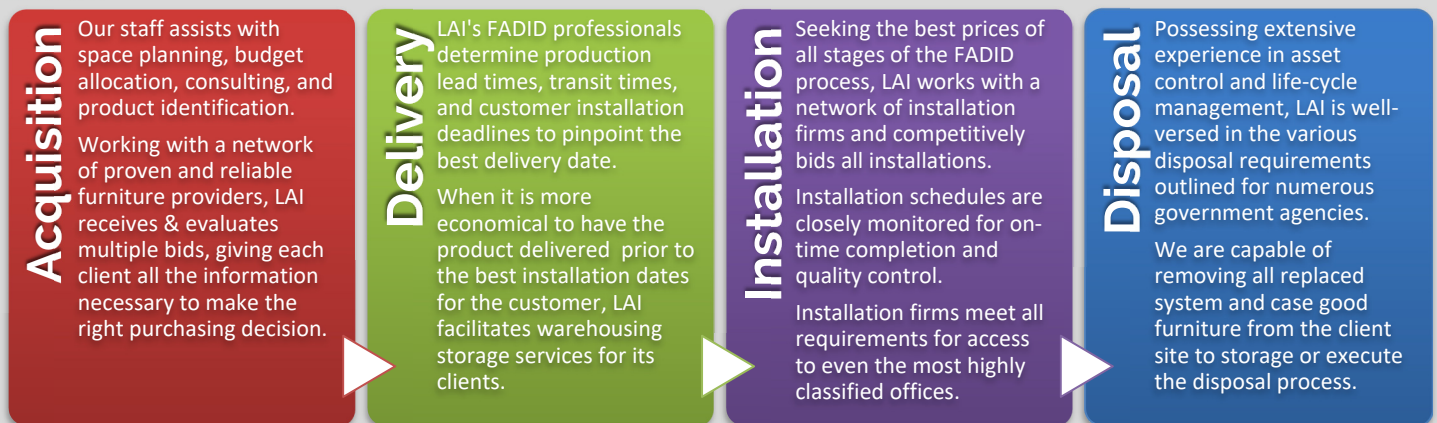

## Operational Support

From administrative support to transportation management, IT Media Sanitization, and conferencing services, LAI staff has developed expertise in a number of logistical support activities.

<b>Contract Lifecycle</b> Our experience in assisting clients create greater internal efficiencies includes getting solicitations ready for distribution, evaluating responses, and then closing contracts out as they come to the end of their terms.	<b>IT Media Sanitization</b> Our IT Sanitization process is fully compliant with DoD 5220.22M guidelines for securely erasing sensitive data in hard drives and other equipment. Work is performed at client premises to satisfy custody requirements and to ensure sensitive data never leaves the building.	<b>Mail Services</b> LAI possesses extensive experience in mail screening, packaging, and distribution. Our staff utilizes all resources including USPS, FedEx, and UPS.
<b>Transportation Services</b> Our array of transportation services includes people and package movement: Fleet maintenance and management, executive driving services, courier services, supply distribution management, vehicle leasing facilitation, & transportation scheduling.	<b>Conference Support</b> From entire conference and meeting planning to simple room set-ups, LAI can provide logistical, management, catering and audio visual support for all types of agency events.	<b>Travel Management</b> Facilitating international travel, LAI is capable of obtaining personal and diplomatic travel documents for official government travel. We have established relationships with numerous embassies and agencies to ensure expedited services.

## FADID Services

Working with the most respected names in system and case good furniture and the region's most proficient furniture installers, LAI acquires the best prices to stretch shrinking budgets further. The services do not end with installation; we also have the expertise and network to properly dispose of the replaced assets. From space design to disposal, LAI offers a complete asset life-cycle service that saves time and money allowing clients to focus on mission completion.
